

# DRIVE YOUR FUTURE FORWARD

You're ready to move forward in your life, whether that's launching a promising career, looking for a promotion in your current field, or simply wanting to sharpen your professional skills. With a Juniata College graduate degree, you can do just that! Explore all the ways a graduate degree from Juniata will give you a boost in the right direction.

- Learn from educators who are well-respected professionals in their field. They'll pass on their expertise to you and provide you with unique opportunities for research and field experience.
- Find success in your profession. Most of our students have a job or promotion lined up upon graduation, including nearly 100% of our Master of Accounting students. Plus, we have one of the largest career fairs of any independent college in the state.
- Experience the strong network of Juniata alumni. Alumni are frequently invited into classrooms or the career services office to share their perspective and connect with graduate students about employment opportunities.
- We offer programs in eight distinct fields, presenting you with a variety of opportunities for your individual career goals. Most of our programs are offered online and also in eight-week formats, making it all the easier to fit graduate education into your life.

## Master of Accounting

With our Master of Accounting, students prepare for advanced accounting roles and leadership positions with a comprehensive understanding of management, economics, problem-solving, and more. Taught entirely online, the MAcc program provides flexibility, practical experience, and alumni connections.

## Master of Business Administration

Students in our Master of Business Administration program gain advanced knowledge and practical skills then graduate ready for leadership roles with an increased earning potential. Completed in one year of full-time study, this online MBA is customizable through a variety of in-demand concentrations.

## Master of Organizational Leadership

Juniata's Organizational Leadership master's degree program enables students to create healthier, more productive workplaces. Our online program can be completed in as little as one year and provides technical expertise needed to make ethical decisions, plan strategically, and communicate effectively.

## Master of Public Health

This dynamic MPH prepares students to solve today's greatest public health challenges. With concentrations in Epidemiology & Clinical Research, Health Policy & Administration, and Community Health & Communication, we'll help you meet your goals and create meaningful change for your community.

## Master of Bioinformatics

Students in our Master of Bioinformatics stay ahead of the curve by working with expert faculty and cutting-edge technology, combining biology and data science to investigate today's top biological questions. This program can be completed in person or online and offers a Computational or Biotechnology concentration.

## Master of Data Science

This Master of Data Science program helps students break into this future-focused field with a foundation of industry knowledge and hands-on experience. Students learn to acquire, prepare, analyze, and present data effectively through virtual courses and an optional weekend boot camp once per semester.

## Master of Education in Special Education

Our practitioner-oriented Master of Education in Special Education prepares students to be compassionate educators while navigating complex educational systems. This online program can be completed in one year and prepares students not just to teach but also to lead a brighter future for their students.

## Master of Applied Ecology and Natural Resource Management

Juniata's Master of Applied Ecology and Natural Resource Management prepares future scientists and conservationists to address complex environmental issues. Through in-person study, students engage in immersive fieldwork and research, learning to collect data and effectively communicate their findings.
